# The Solutions

- We need to improve the our consciousness of caring the olds and the aging problem.
- We should combine the family pension and social pension together.
- The government could loose the family planning policy to increase the population of children.

# The Meaningful Life

- University for the elderly
  - One method to establish the learning society.
  - Suiting with the aging society.
  - Contenting for the harmonious society.

# The Meaningful Life

- Old people's social league.

In such organizations, the olds could arrange their activities and get more friends their own age, which make them more active.

They could get together to learn the calligraphy, dancing and shadowboxing, etc.
